“Why can't the Jews and Arabs get their act together and make peace?” Dr. Yair Hirschfeld helped organize an intense track-two and backchannel dialogue with the Palestinian leadership of the West Bank and Gaza. In December 1992, Hirschfeld created the Oslo Channel and headed the Israeli negotiating team. In his talk, Dr. Hirschfeld will describe the causes that permitted the successful conclusion of the Oslo Accords and the dramatic inside story behind the set-backs and failures. Copies of Dr. Hirschfeld’s book *Track Two Diplomacy Toward an Israeli-Palestinian Two State Solution, 1978-2014* will be available for purchase and signing.
